WORK EXPERIENCE

Elite Electrical, Huntsville, AL

May 2021 – August 2022

Electrician

- Inspected, tested, and repaired electrical systems and components in over 150 residential homes, including electrical wiring, fixtures, and appliances
- Ensured compliance with residential electrical codes, blueprints, and standards conducive to routine future home inspection
- Collaborated with builders to deliver high-quality projects that met and exceeded client expectations

Aligned Chiropractic, Huntsville, AL

July 2020 – May 2021

Chiropractor's Assistant

- Deployed cloud database of patient records to transition to another on premise server in an effort to increase security around PHI and PII
- Managed and troubleshoot IT infrastructure and software systems for the Chiropractic office
- Trained and supervised 5+ employees who administered therapy to over 30 patients per day
- Used VitaLogics Chiropractic Software to coordinate scheduling, billing, and coding across a wide network of insurance providers
- Created patient notes for entire practice to streamline documentation of patients overall plan of care

Church of the Ville, Louisville, KY

August 2019 – March 2020

Worship Pastor and Music Director

- Gained proficiency in: Ableton Live DAW software, RoadHog Lighting systems, ProPresenter software, Audio Engineering - Behringer x32, through various means of self-study to better engineer, design, and lead weekly worship sets
- Created and facilitated service experiences at a start-up by setting up and taking down Worship, Audio, and Production equipment weekly in a local school
- Developed systems and processes to train 25+ people on Worship/Production/Audio teams
